MANUFAKTUR

ENHANCING EXCELLENCE

# THE MM PROGRAM STARTS WITH THE INDOMITABLE WALTHER Q5 MATCH STEEL FRAME

Many of the Walther Q5 Match features are shared with the Meister Manufaktur pistols, others have been upgraded to create a highly specialised version of the Q5 foundation.

## COMMON Q5 MATCH FEATURES INCLUDE:

- ALL STEEL CONSTRUCTION WITH EXTENDED FRAME RAILS.
- EXTENDED MIL-STD-1913 PICATINNY ACCESSORY MOUNTING RAIL:  
For lights, lasers, or other tactical devices.
- AMBIDEXTROUS MAGAZINE RELEASE BUTTON: Conveniently positioned for thumb operation. Reversible for right or left hand operation.
- AMBIDEXTROUS SLIDE STOP: Slide locks back on empty magazine. Slide stop is extended for easy gloved operation.
- FRONT AND REAR SLIDE SERRATIONS: Non-slip surface to operate the slide smoothly. Distinctive Walther styling.

# PATRIOT

The "Patriot" limited edition elegantly fuses the rich patriotic history of the United States with the unyielding performance of the Q5 Steel Frame. The distinctive engraving on this iconic pistol is immediately recognizable as an uncompromising embodiment of accomplishment and a passion for quality.

- Patriot engraving applied by the world-famous Bottega Giovannelli in Italy
- 20 lines per inch checkering, satin anodized grip
- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy magazine base plate machined from solid block of pure steel
- Engraved black serrated target front sight and adjustable match rear sight integrated into slide

# ARABESQUE

The “Arabesque” is a one off, uniquely customised Q5 Steel Frame that takes the design idiom to a level not realized on production pistols before. With embellishments usually reserved for the best sporting shotgun and rifles, this is the perfect fusion of form and function combining sensuality and pure clarity, truly enhancing excellence.

- Full coverage hand engraving by world-renowned Italian master engraver Dario Cortini
- 24 carat gold inlay
- Exhibition grade, Caucasian walnut grip with 20 lines per inch hand chequering
- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- Magazine base plate machined from solid block of pure steel
- Engraved black serrated target front sight and adjustable match rear sight integrated into slide

# BLACK TIE

The “Black Tie” special edition is deliberately understated, yet its refined looks and added performance, make this unassailable Q5 Steel Frame a modern classic.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Stinox® coating applied giving satin finish and outstanding protection against corrosion and wear
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel
- 20 lines per inch checkering, satin anodized grip
- Black serrated target front sight and adjustable match rear sight integrated into slide

# BLACK DIAMOND

The “Black Diamond” special edition takes the look and performance of the indomitable Q5 Steel Frame to a purposeful new dimension. With a futuristic lustrous finish, this distinctive pistol imbues a pride of ownership and is a statement of class.

- Tenifer® nitride treated barrel, slide, steel-frame, magazine base plate for superior hardness and phenomenal protection against corrosion
- Diamond Like Carbon (DLC) coated giving a unique high-polish finish
- Dynamik Performance Trigger, reduced take-up, trigger stop and trigger reset breaking at 5.5lb
- One piece wrap-around aluminum grip machined from solid block of aerospace grade aluminum alloy and the magazine base plate machined from solid block of pure steel
